

Features

Access Simplex® Fire Alarm Network information by connecting to a TrueSite Workstation (TSW) using a Mobile Client

- Use an **iPhone, iPad, iPod touch, or Google Android tablet or mobile device** as a TSW mobile client providing fire alarm network annunciation access with restricted features similar to a PC based Remote Client.
- Install the 4190-5067 feature at the TrueSite Workstation to enable TSW Mobile Client application connections
- Connect multiple TSW mobile clients for simultaneous status information access
- Mobile device must be able to access the local area network (LAN) where the TrueSite Workstation server is connected
- Compatible with 3G and 4G cellular service via VPN (virtual private network) connection
- Basic system status language support includes: English, French, Spanish, Russian, Hebrew, Chinese, and Arabic (custom text is same language as the TrueSite Workstation)

View the TrueSite Workstation status of:

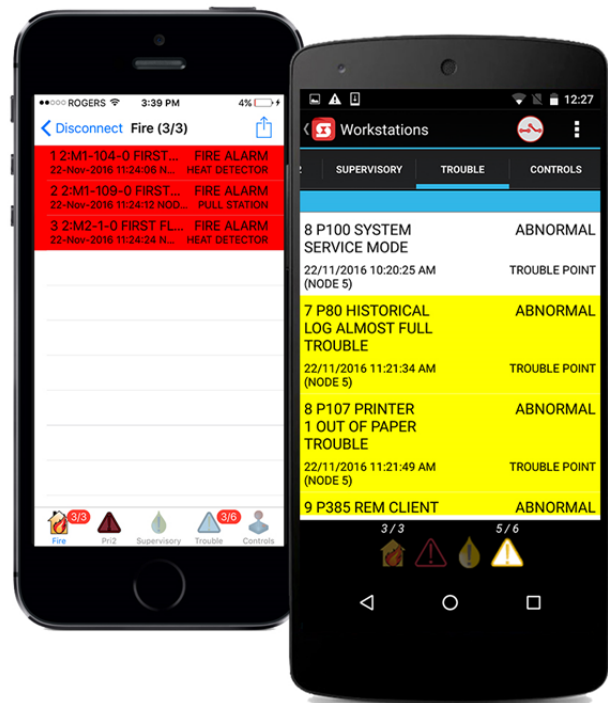

- Fire Alarm, Priority 2, Supervisory, and Trouble conditions

Available Non-Listed Control Functions

- Limited control functions can be accessed by password controlled login and by designated mobile device for system testing. For applications where agency listing and approvals are not required, and where operation is permitted by the local authority having jurisdiction (AHJ), Civil Defense, or equal; and for qualified and authorized fire responder/life safety site personnel to use during system testing
- Non-listed control functions include: Alarm, Priority 2, Supervisory, and Trouble Acknowledge; Alarm Silence, Priority 2 Reset, and System Reset; utility and audio controls
- Mobile control functions provide a convenient and efficient method for authorized personnel to access system information during initial system setup, system commissioning, and subsequent system service activity
- With the TSW Mobile Client, the TrueSite Workstation response to system testing is readily available to authorized personnel at the test location without requiring someone at the TSW to respond, and without requiring use of a laptop computer

iPhone or Android Device with TSW Mobile App

TrueSite Workstation System Reference with Wired Remote Client and TSW Mobile Client (Apple iPhone 5s and LG Nexus 5 shown)

– This product is not agency listed.
